Principles of Unity

A guideline for the day to assure a tone of considerate and respectful dialogue that would be both safe and inclusive:

One person speaks at a time,

To talk, you must raise your hand,

A time keeper will time each speaker and the facilitator will cut people off after 3 minutes,

Facilitator will move up first time speakers ahead of active talkers,

Facilitator will keep a list of people who want to speak,

Listen attentively and actively by making sure you understand what has been said,

Be respectful of others,

Different views are encouraged.
